# STRIKE UP THE BAND

*Automatic Musical Instruments, Inc.*

# with... ***the Entertainer II*** ***3 in 1 Entertainment System***

Strike up the band for FUN and ENTERTAINMENT! The new Entertainer II is ready for your command performance of toe-tapping, finger-snapping enjoyment. Treat your friends or customers to hours of **live** music, while everyone joins in the fun!

The Entertainer II combines all the charm of a player piano and orchestrion with the convenience of tape cartridge operation — you just insert the special instruction tapes and the party begins! Three instrument systems in one handsome cabinet, the Entertainer II is:

- an 8-piece band
- a player piano
- a piano to play manually

Live music to delight you with new convenience — the Entertainer II will **never require tuning**. The outstanding musical quality is achieved through the latest in solid state electronics, with the sound and tone of an acoustic piano but without the maintenance problems of the past.

Simplicity of operation, **live** entertainment, reliability — the Entertainer II is the perfect entertainment system for your home or business!

The Entertainer II, shown with optional Singalong Display

## ***Fantastic Sound Plus Visual Action...the Entertainer II.***

Fascination with automatic musical instruments has endured through the years. In the late 1800's and early 1900's, people gathered around the 'orchestrion piano' or 'nickelodeon' for hours of sing-along entertainment. The Entertainer II is the orchestrion of today, combining modern technology with old time appeal. The convenience of tape cartridge operation has replaced bulky paper rolls used in older models, but the entertainment value and quality have not been compromised. The Entertainer II creates a unique atmosphere with its handcrafted oak cabinet, leaded glass or plexiglass front and wide variety of musical selections. Tapes include holiday, popular, country and ragtime renditions to suit any mood or taste. A new storage drawer above the keyboard has been added, so tape cartridges are always at your fingertips.

### ***Singalong Display Lets Everyone Join The Fun!***

Available as an optional feature of the Entertainer II, the Singalong Display provides hours of group entertainment, yet is easy to install and operate.

As the tape system operates the piano and instruments, the lyrics dance across the Singalong Display screen accompanied by specially designed graphics for visual entertainment. Your business name and slogan can be preprogrammed into the Singalong Display for a continuous advertising message when the sing-along tapes are not in use. Imagine the Entertainer II in your business! It provides **low-cost, continuous** entertainment and can add to your profits via the coin box. Many owners report a return on investment of 50%-100% annually.

The Entertainer II creates a unique, friendly atmosphere to attract and hold people in your establishment. Time will pass quickly in your waiting area when the sounds and action of musical entertainment fills the room. You can support a charity drive with

coin box revenues, or promote special events and holidays with your choice of music.

Once you own the Entertainer II, you'll find many unique and exciting uses to intrigue your guests and build your business!

Create the mood you want with **live music!** Select from hundreds of titles in the AMI piano/orchestrion library, or from several thousand piano renditions. Write for our complete catalog, which includes favorites like these:
